Buxton is an industry leading market research and geographic information systems (GIS) technology firm that develops models to predict retail store performance, conducts GIS analysis, and creates a wide-range of GIS solutions for national clients ranging from future store site selection to direct mail advertising campaigns.

Founded in 1994, the Fort Worth, Texas based company has received a tremendous response to its innovative research services and has grown at a phenomenal pace.

Work is conducted in an open and professional team environment where creativity, innovation, and technical problem solving skills are required. Buxton believes in providing their customers with exceptional value by continuously improving their products and services. This is reflected in re-investment in the best people, technology and facilities.
